*** Please note fees & rebates are subject to change ***

Rainbow Care Clinic follows a slow medicine approach where time is taken to get to know and understand you in order to collaboratively develop a personalised care plan that reflects your individual health care goals. As such, initial appointments with Rainbow Care Clinic are typically 45-60 mins. Ongoing care appointments are usually 15-30 mins. Rainbow Care Clinic is a private billing clinic and fees apply to appointments. Bulk billing is not available. Payment is due at the time of your appointment. Rainbow Care Clinic out of pocket fees contribute to your **Extended Medicare Safety Net**.

Medicare rebates apply to your consultation if you are a Medicare card holder and the consultation is eligible for a rebate. All face to face consultations are eligible for Medicare rebates. Telehealth appointments are eligible for Medicare rebates if you have seen Dr Holly face to face in the last 12 months OR the consultation is related to sexual health. Gender-affirming hormonal care consultations are considered sexual health consultations and thus eligible for rebates.

Medicare rebates do not apply for consultations with carers, partners or parents when you are not present. Medicare rebates do not apply for insurance, legal or non medical paperwork.

Rainbow Care Clinic is happy to see non-Medicare eligible patients. You will be provided with a invoice that you can claim with your health insurance, if you have it. Full payment is required at the time of consultation.

Appointments can be cancelled up to 24 hrs prior to your appointment by replying to your confirmation email or text. Cancellations within 24 hrs will incur at 50% cancellation fee. No-shows will be charged the full consultation fee. If you are unwell or are isolating at the time of your face to face appointment, please reply urgently to your confirmation email or text to advise Dr Holly to change to a telehealth appointment.

Consultation fees

First appointments with Rainbow Care Clinic are 45 mins for telehealth and 60 mins for face to face. The reason for the difference is in Nov 23 Medicare introduced a 1hr rebate for face to face consultations but not for telehealth. To limit costs for patients, 60 min consultations are limited to face to face consultations. Ongoing appointments are typically 15-30 mins depending on your needs.
